

Take Control. Improve Efficiency. Reduce Fatigue.

SmartLaunch is the latest advancement for Astec's Roadtec F-series pavers, engineered to deliver **consistent, repeatable, optimized starts and stops** – every time. This exclusive feature puts **best practices at your fingertips**, helping you achieve superior paving results with less effort.

THE SMARTLAUNCH ADVANTAGE

Efficiency

Streamline operations and improve productivity.

Quality

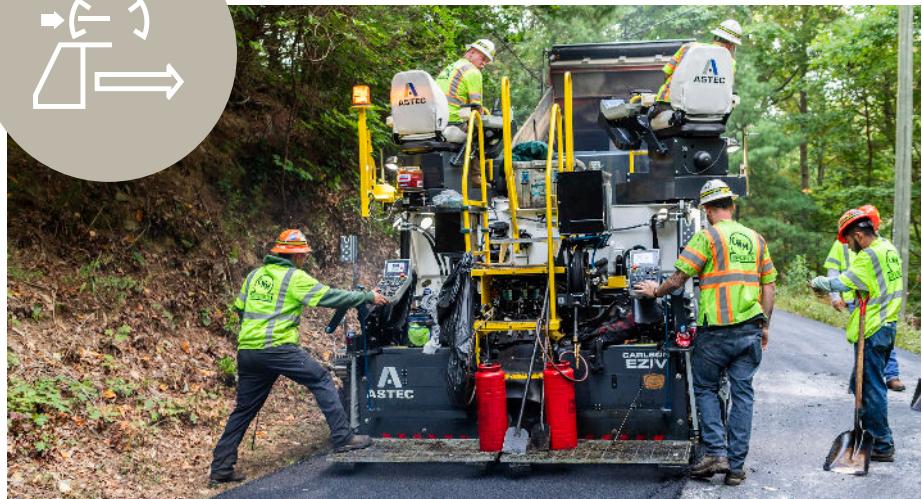

Deliver uniform paving results with every project.

Reliability

Repeatable performance for consistent outcomes.

SMARTLAUNCH

Innovation Only from Roadtec

WHY SMARTLAUNCH?

Optimized Starts & Stops

SmartLaunch ensures precision and consistency, eliminating guesswork and variability during starts and stops.

Production Efficiency

By maintaining steady speed, it simplifies trucking and production planning – making paving operations smoother and more productive than ever.

Reduce Operation Fatigue

Simplify the paving process with intuitive automation, so operators can focus on quality – not stress.

Exclusive to Roadtec

SmartLaunch is a unique innovation available only from Roadtec, setting a new standard in paving technology.
