How to Use This Catalog

This catalog contains the most frequently ordered parts for both CON-E-CO® and McNeilus® Batch Plants, as well as components required on all competitive plants. The primary heading in the Table of Contents corresponds with the category description on the edge of each page. The secondary headings in the Table of Contents correspond with the horizontal headings on the parts page. Each secondary heading lists the page in the catalog where it can be found.

How to Order

You have a choice of who to contact for any of the parts in this catalog. Parts may be ordered from either the factory or a dealer.

When ordering parts for your plant, the plant's model and serial number may be required. The serial number is located on the columns of the plant, name plate or is engraved in the main control panel.

If you wish to place an order after hours, email us at parts@con-e-co.com and a parts and service tech will place the order the following business day.

CFI, NLA or OIR

When ordering parts, some are complicated with many options and variations or are no longer available. To identify these parts, an acronym has been used in the Part No. field. Three acronyms have been used and are identified as follows:

CFI (Contact For Information)

NLA (No Longer Available)

OIR (Order Information Required)

Reference the example below for the location of the acronym:

Description	CON-E-CO® Part No.
Antenna	CFI

CFI

A **CFI** indicates additional specifications are required. Please contact your CON-E-CO® Distributor for further details. When a **CFI** is referenced, a table with a specific definition will follow.

CFI - Contact for Information

Specifications required when ordering complete units.
Please contact your CON-E-CO® Distributor for further details.

NLA

An **NLA** indicates the original part is not available. Please contact your CON-E-CO® Distributor for replacement information. When an **NLA** is referenced, a table with a specific definition will follow.

NLA - No Longer Available

When ordering item "A", the discharge opening size, 24" or 30", must be specified.

OIR

An **OIR** indicates specific information in addition to the Part No. is required when ordering. When an **OIR** is referenced, a table with the specific information is identified.

OIR - Ordering Information Required

When ordering item "A", the discharge opening size, 24" or 30", must be specified.

How to Order Manuals

You have a choice of who to contact to order manuals. Manuals may be ordered from the factory or a dealer.

Provide plant/mixer serial number when ordering manuals.

Please allow up to four weeks for delivery.

Recommended Spare Parts

For a complete list of spare parts required or recommended for your CON-E-CO® or McNeilus® Batch Plant contact the factory or CON-E-CO® dealer with the plant serial number.

Safety Notice

Safety notices are one of the primary ways to call your attention to potential hazards.

WARNING

Operating, servicing and maintaining this vehicle or equipment can expose you to chemicals including exhaust, carbon monoxide, phthalates, and lead, which are known to the state of California to cause harm. To minimize exposure, avoid breathing exhaust, do not idle the engine except as necessary, service your vehicle or equipment in a well ventilated area and wear gloves or wash hands frequently when servicing. For more information, go to:
