

# DROPZONE™

Precision Loadout, Enhanced Efficiency

Keep your operations running smoothly with Dropzone, a smart loadout solution designed to improve accuracy and efficiency at asphalt plants.

Plant operators juggle multiple tasks—running the plant, coordinating with truck drivers, managing production, and handling transactions. Dropzone reduces distractions while enhancing safety and protecting your bottom line. A misload can cost thousands in damages, medical expenses, or downtime. Our advanced loadout safety system helps safeguard drivers, equipment, and operations.

## SEAMLESS INTEGRATION

Works with Astec controls or as a standalone solutions for non-Astec systems.

## TRUCK VERIFICATION

Visualize silo status with “go/no-go” indicators for precise truck positioning.

## BYPASS MODE

Easily bypass the system without disrupting operations.

## DATA SECURITY

Securely store customer data and capture insights for future optimization.
